

ColorMaster™

Single Blade Ink System

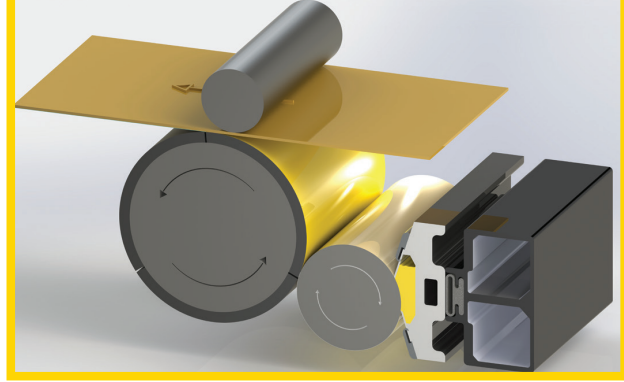

ColorMaster is a single doctor blade ink metering system engineered to replace roll-to-roll or existing blade systems. ColorMaster provides precise metering of ink, is economically priced, and is available for virtually all finishing equipment.

- ▶ Optional wash-up systems
- ▶ Optional ink pump system
- ▶ Optional PLC control system
- ▶ Rigid frame design

AccuPrint®

Chamber Doctor Blade Ink System

AccuPrint is a completely enclosed dual blade ink metering system that replaces outdated wiper roll, single blade, and worn-out dual blade ink systems. AccuPrint integrates with most lines of finishing equipment.

- ▶ Enhanced wash-up
- ▶ Toolless end seal replacement
- ▶ Ink pump system (double diaphragm or peristaltic)
- ▶ PLC control system

ColorMaster and AccuPrint offer the following features:

- ▶ **Toolless blade holder**
- ▶ **Non-corrosive metering bar**
- ▶ **Non-metallic blade with precision bevel**
- ▶ **Heavy-duty air bladder**
- ▶ **Safety interlock system**
- ▶ **Optional anilox idle direct drive system**
