

CORRUGATED

PRODUCTS AND SERVICES FOR THE CORRUGATED INDUSTRY.

WHEN IT'S MAKE OR BREAK.™

**GREAT
PERFORMANCE.
LOWEST
COST.**

THE LEADING MANUFACTURER OF HIGH-QUALITY PRODUCTS FOR THE CORRUGATED INDUSTRY.

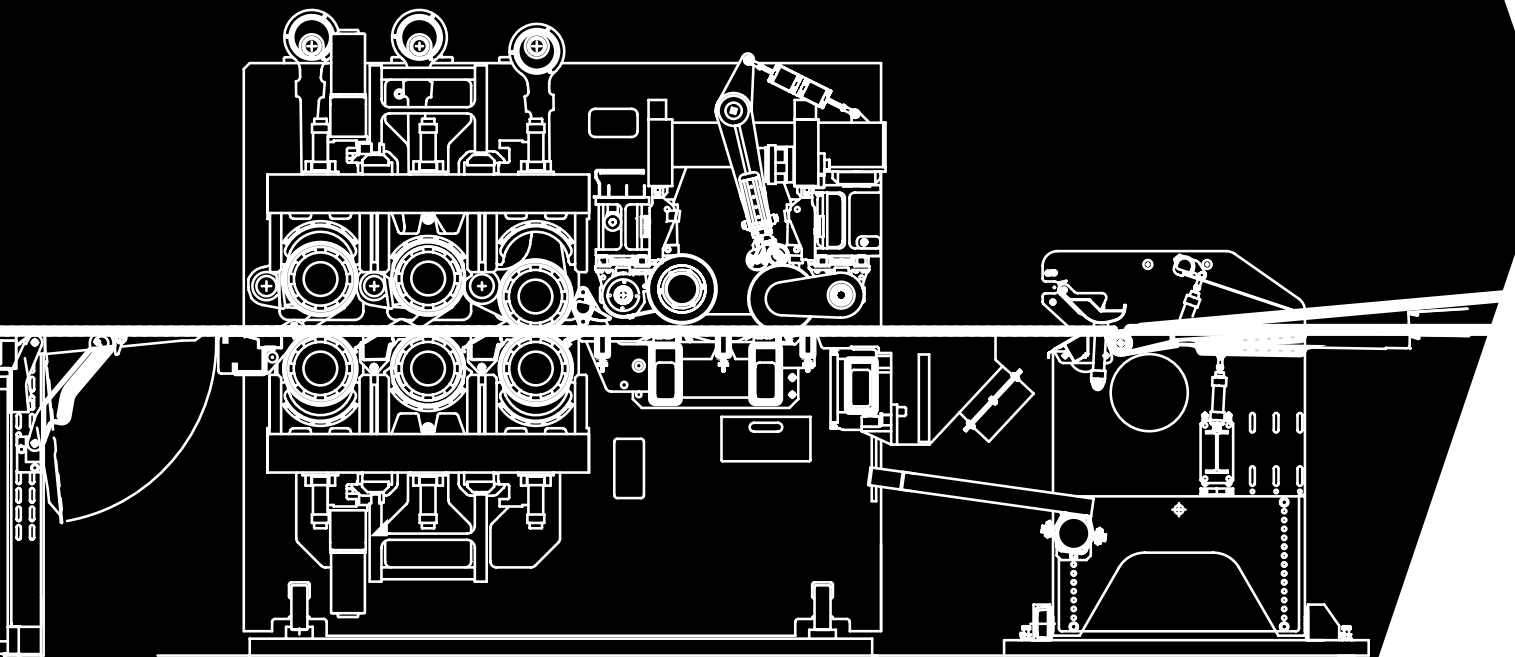

SINCE 1953, our corrugated knives and blades have exceeded customers' expectations by continuously ensuring the best products at the best prices. Our full line of corrugated products include cut-off and rotary shear knife sets, slotting knives, high-speed steel or carbide razor slitters, brass fingers, brass strippers, collars, scoring rings, urethane, and accessories.

Our corrugated products are manufactured to meet specified standards, and we have the capacity to make custom solutions for your specific application needs. Zenith Cutter's industrial knives and blades are only manufactured with the finest grade steel, which increases blade life, minimizes operational downtime, and optimizes machinery performance. All of our products are available within a reliable time-frame at cost-competitive prices, and can be shipped directly to your facilities.

CORRUGATOR

ZENITH CUTTER MANUFACTURES HIGH-QUALITY KNIVES, BLADES AND ACCESSORIES FOR THE ENTIRE CORRUGATING PROCESS. OUR CUT-OFF KNIVES, RAZOR SLITTERS, BRASS FINGERS AND URETHANE WHEELS ARE THE IDEAL REPLACEMENTS FOR NEARLY ANY BRAND OF CORRUGATOR ON THE MARKET TODAY.

WHEN IT'S MAKE OR BREAK.™

CUT-OFF KNIVES

Zenith Cutter is the trusted leader when it comes to high quality and cost effective aftermarket replacement cut-off knives. We offer a full line of cut-off and rotary shear knife sets, with plain or serrated cutting-edge options. Zenith Cutter is proud to manufacture cut-off knives with only the best materials and workmanship in the industry.

RAZOR SLITTERS/ CARBIDE RAZOR SLITTERS

Zenith Cutter offers a full line of high-speed steel razor slitters, as well as powdered metal and tungsten carbide razor slitters. We also offer sharpening stones, felt lubrication wicks, and value-added upgrades to our top performing slitters, including Titanium Nitride coating or Cryogenic treatments. Our quality work, superior blades, and unique sintering process outperform the competition.

Our improved packaging includes protective edging on the blade for safe handling and a retaining clip for easy removal of edging, leaving no residue.

SLITTERS

As the industry leader of blade to blade slitting, Zenith Cutter offers the right blade for the right job. Our slitters provide the perfect angle to assist with your difficult cutting applications. Zenith Cutter will satisfy all of your manufacturing needs through our years of product innovation and industry dedication.

COLLARS

Only the finest steel is used to manufacture Zenith Cutter's collars. Our long lasting collars are commonly used with corrugators and slitters, and we offer many sizes in-stock for presses and partition machines. The standard width is 2" for close set-ups, and we may accommodate 1-1/2" and 1-3/4" widths. Our experienced engineering and research development staff are committed to produce quality industrial knives and blades each and every time.

CUSTOM SOLUTIONS

For customers needing a custom solution, Zenith Cutter is the go-to source. We have the engineering resources and equipment to make it happen.

SCORING RINGS

Our scoring rings will withstand the abuse of dropping, running together, and misalignment. Full hardened steel rings ensure our customers durability and superior strength. We are happy to quote special profiles upon your request.

CONVERTING

ZENITH CUTTER OFFERS A WIDE VARIETY OF HIGH-TECH KNIVES AND BLADES FOR THE CONVERTING PROCESS. OUR MALE SLOT KNIVES, FEMALE SLOT KNIVES AND BRASS STRIPPERS ARE AMONG MANY PRODUCTS THAT ARE MANUFACTURED SPECIFICALLY FOR TODAY'S CORRUGATED INDUSTRY.

WHEN IT'S MAKE OR BREAK.™

WOLVERINE™ MALE SLOTTERS

For years, Zenith Cutter has been the leading provider of super male slot knives. But, our knives just got even better! The Wolverine™ is our recently redesigned, patent-pending male slot knife. The newly-engineered serrations are designed specifically for over-recycled corrugate resulting in cleaner cuts and less dust than the competition.

We have hundreds of quality standard male slotters available for immediate shipment and custom sizes are also available.

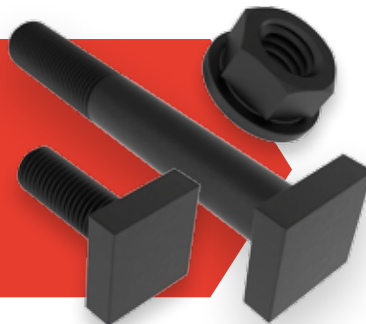

THE BLADES THAT DON'T MESS AROUND!

Wolverine™ blades cut better and last longer than any other male slot knife on the planet. The result is **cleaner cuts** and **less dust**. In fact, a recent test* showed Wolverine produced **24% less dust** than the competition.

ACCESSORIES

Zenith Cutter produces a variety of hardware and holders to complement our parts and complete your needs.

* Based on 100 minutes of runtime, equal quantity of boxes

FEMALE SLOTTERS, SPACERS & STEEL ANVILS

Zenith Cutter offers a full line of female slotting knives, spacers and anvils. Our outstanding customer service will help ensure our female slotters correctly match your male slotting knives. We will match our female slotters by material, fit, and form to help increase operational efficiency.

BRASS STRIPPERS

Only manufactured with the highest quality materials from around the world, Zenith Cutter's full line of female slot strippers meet or exceed specifications. Each stripper is precision cut on a high-tech laser for exact fit every time. Most strippers are available in stock for immediate delivery.

SLIT SCORE KNIVES

Zenith Cutter's slit score knives are made from special, heat-treated steel to provide enduring performance and precision penetration.

Center bevel serrations are furnished as standard, while slide bevel edges can be ground on request. Knives are finished from 4" O.D. to 20" O.D. and the most popular sizes are available from our inventory to assure prompt shipment.

PULL ROLLS

We are pleased to provide our customers innovative pull rolls that are engineered for easy installation and maintenance. Each pull roll is precision machined and knurled to exact specifications to assure proper board specifications and position. This provides accurate printing, slotting, folding, and gluing.

TAB KNIVES

Zenith Cutter manufactures stitch tab knives for nearly any application. Our high carbon steel-to-steel tab knives supply the optimum cut and durability without premature damage to your anvils. Our world class manufacturing abilities provide our customers with a valuable competitive advantage.

URETHANE

Zenith Cutter offers a range of highly reliable urethane products for corrugated printing equipment, die cutters and other packaging machinery to meet the various demands of the market.

NO-CRUSH WHEELS

High coefficient friction, excellent impact resistance, maximum flexibility, and superior abrasion resistance are some of the many design advantages of Zenith Cutter's No-Crush Wheels. Our No-Crush Wheel products are formulated to prevent board movement, avoid crushing of board flutes, and increase wear resistance to reduce machine downtime and inventory costs. Our years of production experience enable us to produce urethane parts for most corrugated machinery.

BLANKETS

We identify the strength and excellence of our die cutting blankets by making the orange color a signature of Zenith Cutter. Our unique urethane formulation is able to withstand the harshest applications and extend the duration of anvil covers for maximum wear. Zenith Cutter's die cutting blankets are manufactured with durable TDI esters for high tear resistance and low resilience. We also offer knuckle type and close bar type design options.

CREASER ANVILS

Zenith Cutter always engineers creaser anvils with perseverance in mind. These covers are fabricated for light to extreme physical demands. We have the capacity to produce creaser anvils in various hardnesses for your specific corrugated paperboard requirements.

FEED WHEELS

Zenith Cutter's replacement feed wheels are manufactured with the highest quality materials to exact specifications. All Sun® replacement wheels are finished ground for optimum performance.* Our replacement feeder wheels are available in a variety of sizes to meet your specific equipment requirements.

DOCTOR BLADES

Zenith Cutter's StraightPoint™ Doctor Blades outlast steel by up to four times! Longer blade life means fewer blade changes, less downtime and increased productivity. These blades are an economical and practical substitute for steel for applications such as wide-web, mid-web, corrugated, envelope, offset, specialty coating, and newspaper.

*Sun is a registered trademark of Sun Automation, Inc.

THE ONLY THING BETTER THAN OUR BLADES **IS OUR CUSTOMER SERVICE.**

In fact, an independent Voice of Customer study puts Zenith Cutter far and away the best in our industry, with customer satisfaction scores higher than some of the largest brands on the planet.

With outstanding products and superior customer service, we are proud to be recognized as the best manufacturer and marketer of industrial knives worldwide.

WE MAKE THE BEST KNIVES ON THE PLANET... AND WE BACK THEM UP!

OUR GOAL

Our goal is not only to create and manufacture the best blades on the market, but to also work with you to make your job easier. Whether we create custom solutions or provide on-site technical support, we consider ourselves a valuable part of your team.

CUSTOM SOLUTIONS

For customers needing a custom solution, Zenith Cutter is the go-to source. We have the engineering resources and equipment to make it happen.

REORDER PROGRAM

Control Your Inventory and Minimize Downtime...Never run out of knives again. Zenith Cutter offers convenient re-order programs so customers always have replacement knives on-hand to keep manufacturing processes up-and-running.

BEST IN CLASS. GUARANTEED.

We guarantee our knives will perform, as well or, better than the rest. Why? Because making knives is what we do and we do it better than anyone else. Through extensive engineering and research, we make the best knives on the planet.
